Printing Experts

We are the experts in printing!

代表取締役社長 赤坂徳靖
CEO Noriyasu Akasaka

In strong partnership with clients, Akasaka Printing has been engaged with printing business for more than half a century. Our core competence is providing solutions in the field of business form printing, armed with the most sophisticated facilities in western Japan along with an established network throughout the country. We deal with any kind of demanding specifications, however complex it may be, and deliver the products in the shortest time frame unrivaled by others.
In recent years, the printing industry has been facing a very fast-changing era due to digitization and entries from other industries. Responding to emerging business needs, we established IC-tag Department to engage with the development of RFID system., We are in the middle of transforming ourselves into an innovative printing firm integrating IT and printing.
We have an energetic workforce of average age 34 years old, who are highly professional in their skill and attitude. I, Noriyasu Akasaka, make sure our employees are happy and enjoy working by providing the environment where they can be positive, creative and proud to be part of Akasaka Printing.
We are committed to provide the best services and to support our clients in achieving cost effective and higher efficient businesses.
We look forward to being your business partner.

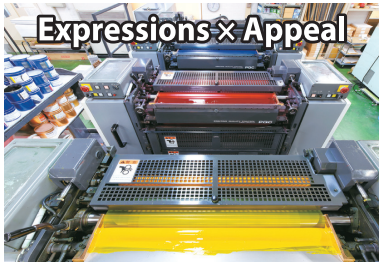
our products

Fully integrated printing makes it possible

Form Printing

We offer an integrated one-stop service that covers data processing, printing, inspection, document packaging and dispatch. Our efficient production line enables quality products.

Commercial Printing

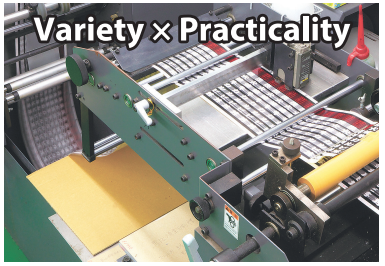


We offer a complete package for our clients and their products with superior design and beautiful finishing that fascinates everyone.

RFID (radio frequency identification)

By introducing IC tags based on wireless technology, we propose an optimum solution with less management costs and human error but with increased productivity.

Sticker Printing



Besides enhancing the product values, we focus on information security and environmental protection exploring versatile possibility of stickers.
